

Weigh Scales

for Crumb Rubber Balers

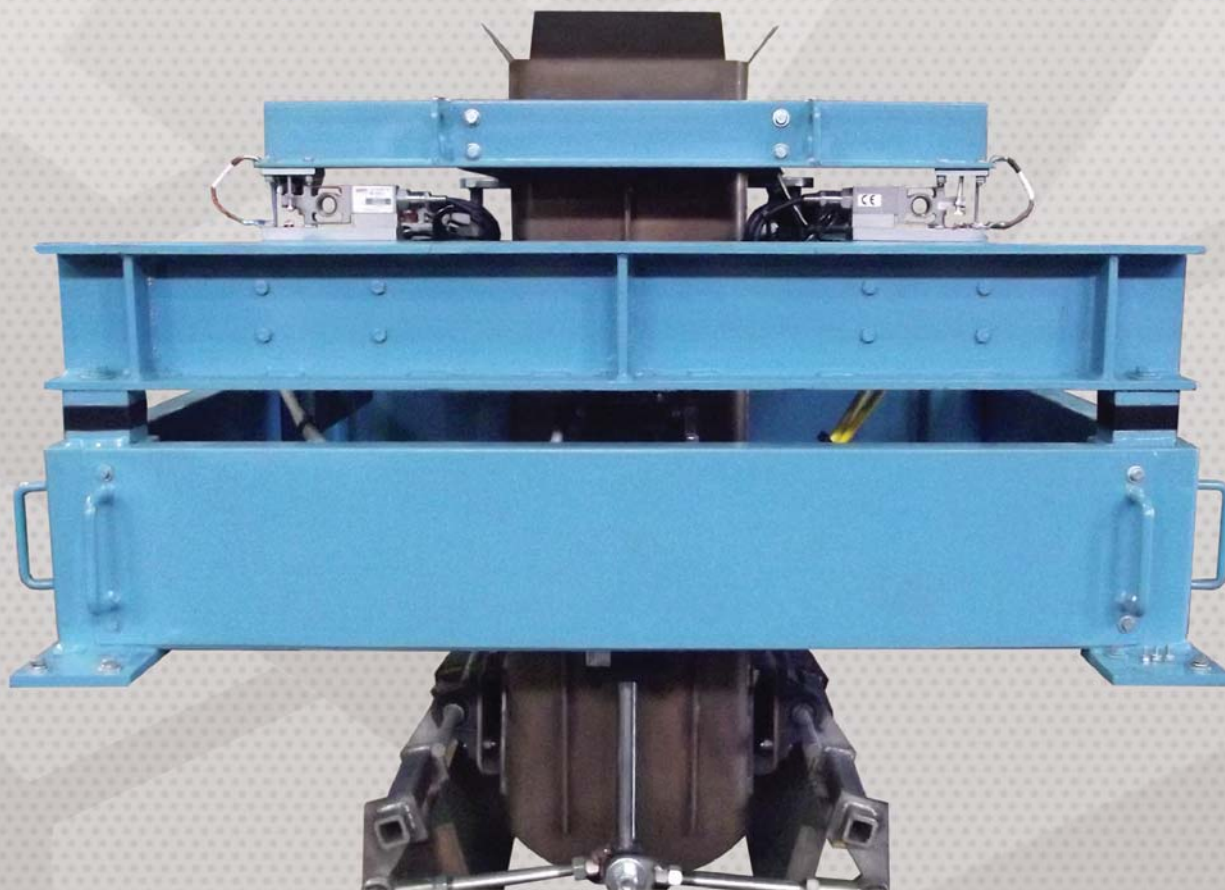

International Baler Corporation's Rubber Crumb Weigh Scale is designed to meet international standards and provide high performance weighing with high accuracy reliability. The simple construction and sturdy design ensure safe and accurate operation for many years.

The leverless weighing system includes four strain-gauge load cells, installed in a support made of rigidly welded steel. All contact parts are 304 SS. Easy access to the essential parts of the machine and easy cleaning is guaranteed by the design. The Rubber Crumb Scale can be combined with various feeder types to adapt to a wide range of products.

IBC is a worldwide leading manufacturer of innovative crumb rubber balers and scales. We excel at customization, including special finishes, coatings, enclosures, and hydraulic power units.

TECHNICAL DATA

Weighing Range: 22 to 110 lbs.
(10 to 50 kg.)
Weigh Hopper: 6 cu. ft.
(0.17 cu. meters)
Protection: NEMA 12
Power Consumption: 0.5 kW
